ABOUT

Computer Science student with hands-on experience in full-stack web development using Java, Spring Boot, React, and Angular through academic and professional projects. Strong foundation in software development principles, problem-solving, and collaborative teamwork. Motivated to apply technical skills, learn rapidly, and contribute meaningfully in a software engineering internship .

SKILLS

Tools and Languages:	Java, JavaScript, Python, HTML, CSS
Frameworks & Libraries:	React, Angular, Spring Boot
Tools & Technologies:	Git, GitHub, REST APIs, MySQL, VS Code, IntelliJ
Concepts:	Object-Oriented Programming (OOP), MVC Architecture, Full-Stack Development.

TECHNICAL PROJECTS

Front-Stack Developer / Corporate Website RAMQ

June 2022 — August 2025

ACL

- Designed and developed responsive user interfaces using React, HTML, and CSS
- Collaborated with developers and designers to integrate front-end features with backend systems
- Dedicated time to implement certain enhanced functionality and improving user experience

Full-Stack Developer / Pet Clinic- Webservices

September 2023 — December 2023

Champlain College

- Producing a functional backend using Java and the Spring Boot framework.
- Implementing a user interface on the front end using Angular and HTML.
- Used GitHub for version control, collaboration, and project organization

Game Developer / Dream Defenders-Tower Defense project

January 2022 — May 2022

Champlain College

- Built a 2D tower defense game using C# and Unity, implementing core gameplay logic.
- Programmed enemy AI, wave systems, and gameplay balancing mechanics.
- Collaborated within a small development team using GitHub version control

EDUCATION

DEC in Computer Science, Champlain St-Lambert College

August 2024

Concordia University

Present

Work Experience

Software Developer

June 2022 — August 2025

ACL

- Assisted in developing and updating features for a billing system using Java
- Writing, testing, and fixing code to ensure the billing process works correctly.
- Reviewing requirements and doing research to support feature development and improvements.
- Testing the application and resolving issues to maintain system stability and data accuracy.

Deli Cook

June 2023 — August 2024

Costco

- Prepared and cooked a variety of deli foods while maintaining high quality and safety standards.
- Maintained a clean, organized, and sanitary work environment in accordance with food safety regulations.
- Collaborated with team members to ensure efficient workflow and timely service during peak hours.
- Assisted with food preparation, stocking, and inventory management.
